

Maryam Nadali

USER EXPERIENCE DESIGNER / PRODUCT DESIGNER

WORK EXPERIENCE

UX/UI Design Intern / Labcorp

MAY 2021 — AUG 2021 (REMOTE, NC)

Designed a guest-centered check-in experience for patients identified through generative user research and refined through evaluative remote methods. Delivered the final report to the executives and was **approved** for future development.

Built a Confluence repository where employees can find information about how to build or use Augmented Reality technology for their use cases.

Developed Augmented Reality Design Guideline for Labcorp.

UX Designer / Laboratory for Analytic Sciences (LAS)

FEB 2021 — APR 2021 (REMOTE, NC)

Designed an intelligent interface that uses Natural Language Understanding (NLU) through which intelligent analysts can interact with a Knowledge Graph to understand relevant data for their investigations. Presented NLU interaction concept for future development to internal stakeholders who saw potential in the AI Interface for intelligent analysis and presented to prospective clients, **generating enthusiasm** for the work.
